WEMICO BESPOKE ARCHITECTURAL FABRICATION

Established for over 35 years, WEMICO is a market leader in the manufacture and supply of beads, profiles, trims and specialist detailing for the external wall insulation, decorative render, roofing and cladding industries.

Part of the Protektor group of companies, WEMICO provides the highest standards of expertise and has an excellent reputation within the construction industry for providing the most comprehensive range of products in its field.

Bespoke Architectural Fabrications provide unique solutions, tailor-made to meet our customer's exact requirements.

Our made-to-measure fabrications are suitable for a wide range of applications and can be used to create crisp details and complex aesthetical façades to buildings old and new. They provide a reliable method of weatherproofing and require minimal ongoing maintenance.

Our bespoke powder coating service allows us to finish any of our fabrications in a multitude of different colours, all to BS and Qualicoat standards.

However, our service doesn't just stop at manufacture and supply! Our detailed on-site measuring service allows products to be precisely measured to our customer's exact specifications.

Back at the office, our in-house technical team use the latest in 3D technology to make the customer's aspirations a reality.

From start to finish, our professional sales and technical team are always on hand to offer sound advice and expert support.

WEMICO

ALUMINIUM COPINGS

WEMICO made-to-measure Aluminium Copings provide economical and stylish protection to parapet walls. Our copings provide the perfect aesthetic finish to your project and are both easy to handle and quick to install.

Suitable for new build and retrofit projects, we have two coping systems available. These comprise of a standard system as well as our unique, patent-pending, heavy duty bracket system, which has been specifically designed to provide additional robustness against wind uplift.

Our heavy duty coping system incorporates secret-fix sloping brackets, which eradicate the need for timber battens; as well as an optional foam seal which eliminates the requirement for supplementary sealants.

All WEMICO copings:

- Are manufactured in the UK.
- Are economical, weatherproof and easy to install.
- Have no visible fixings.
- Can be supplied in a curved formation.
- Additional T-sections, stopends, upstands and joints can all be made to exact requirements.
- Are available, flat, once weathered or twice weathered.
- Can be powder coated to any standard RAL colour, to Qualicoat Standard (warranty available on request).
- Come supplied with a protective film covering.

WEMICO

ALUMINIUM FASCIAS, SOFFITS AND GUTTERING

Manufactured to order, WEMICO's bespoke Fascias, Soffits and Gutterings are suitable for a wide range of commercial and domestic applications. All of our products are available in an extensive choice of colours and finishes, allowing you to seamlessly blend with the existing façade or create striking, contrasting details. Our highly robust profiles provide a crisp, clean finish at any roof level.

All WEMICO roofline products:

- Are individually designed and manufactured to customer requirements.
- Are fabricated in the UK to the highest standard.
- Are available in a variety of different materials and finishes.
- Can be Powder Coated to any standard RAL colour. (to Qualicoat Standard).

WEMICO

ALUMINIUM SILLS & WINDOW PODS

In addition to our standard range of 'off the shelf' products, which are supplied in pre-coated white aluminium, we have the technological ability to design and fabricate bespoke details to practically any size, shape and profile.

WEMICO sills and window pods are suitable for a wide range of applications and create the perfect finish to any construction project. Bespoke details can also be designed and manufactured to provide a completely seamless finish.

Manufactured to order and available in an extensive choice of colours and finishes, our bespoke sills and window pods provide superb weather tightness and robust detailing. All products come supplied with protective film to prevent accidental damage during installation.

Products include:

- Under and Over Sills.
- Head Flashings.
- Verge Trims.
- Window Pods.

WEMICO

ALUMINIUM FAÇADE CLADDING PANELS

Whilst still maintaining building performance requirements, our bespoke Façade Cladding Panel service provides infinite possibilities when it comes to the design of a unique, attractive, impactful statement.

Façade panels can offer a simple, yet visually effective solution that immediately improves kerbside appeal.

A comprehensive onsite measuring service and full technical support is available.

All WEMICO façade cladding systems:

- Are individually designed and manufactured to customer requirements.
- Are fabricated in the UK to the highest standard.
- Are available in a variety of different materials and finishes.
- Come Powder Coated to any standard RAL colour (to Qualicoat Standard).
- Are supplied with a warranty on request.

WEMICO

BESPOKE DETAILS

WEMICO can manufacture any made to measure detail to your exact specification, regardless of size, shape, pitch and depth. We can provide decorative, durable, bespoke solutions for a wide range of external envelope applications. All of our bespoke details are available in an extensive choice of colours and finishes, allowing details to blend or contrast with the overall architectural vision.
